- * **DO NOT** preferably place the Induction Protector on a dirty hob. Keep the underside clean and your hob as well.

FRIENDS DISCOUNT!

If you buy an Induction Protector, you will receive a 5% discount code You may give this to your friends, family or neighbours.

WEATHER INFLUENCES

In cold outdoor temperatures, the Induction Protector may not straighten as quickly as normal after shipping.

The material will take some time to reach room temperature and will then straighten to the hob.
